

Work OS

Changing the way that people
work and businesses operate

Traditional work software wasn't working

- **Rigid architectures**

Forcing users to adapt to software rather than the other way around

- **Development capabilities limited to a select few**

Creating a lack of speed and agility

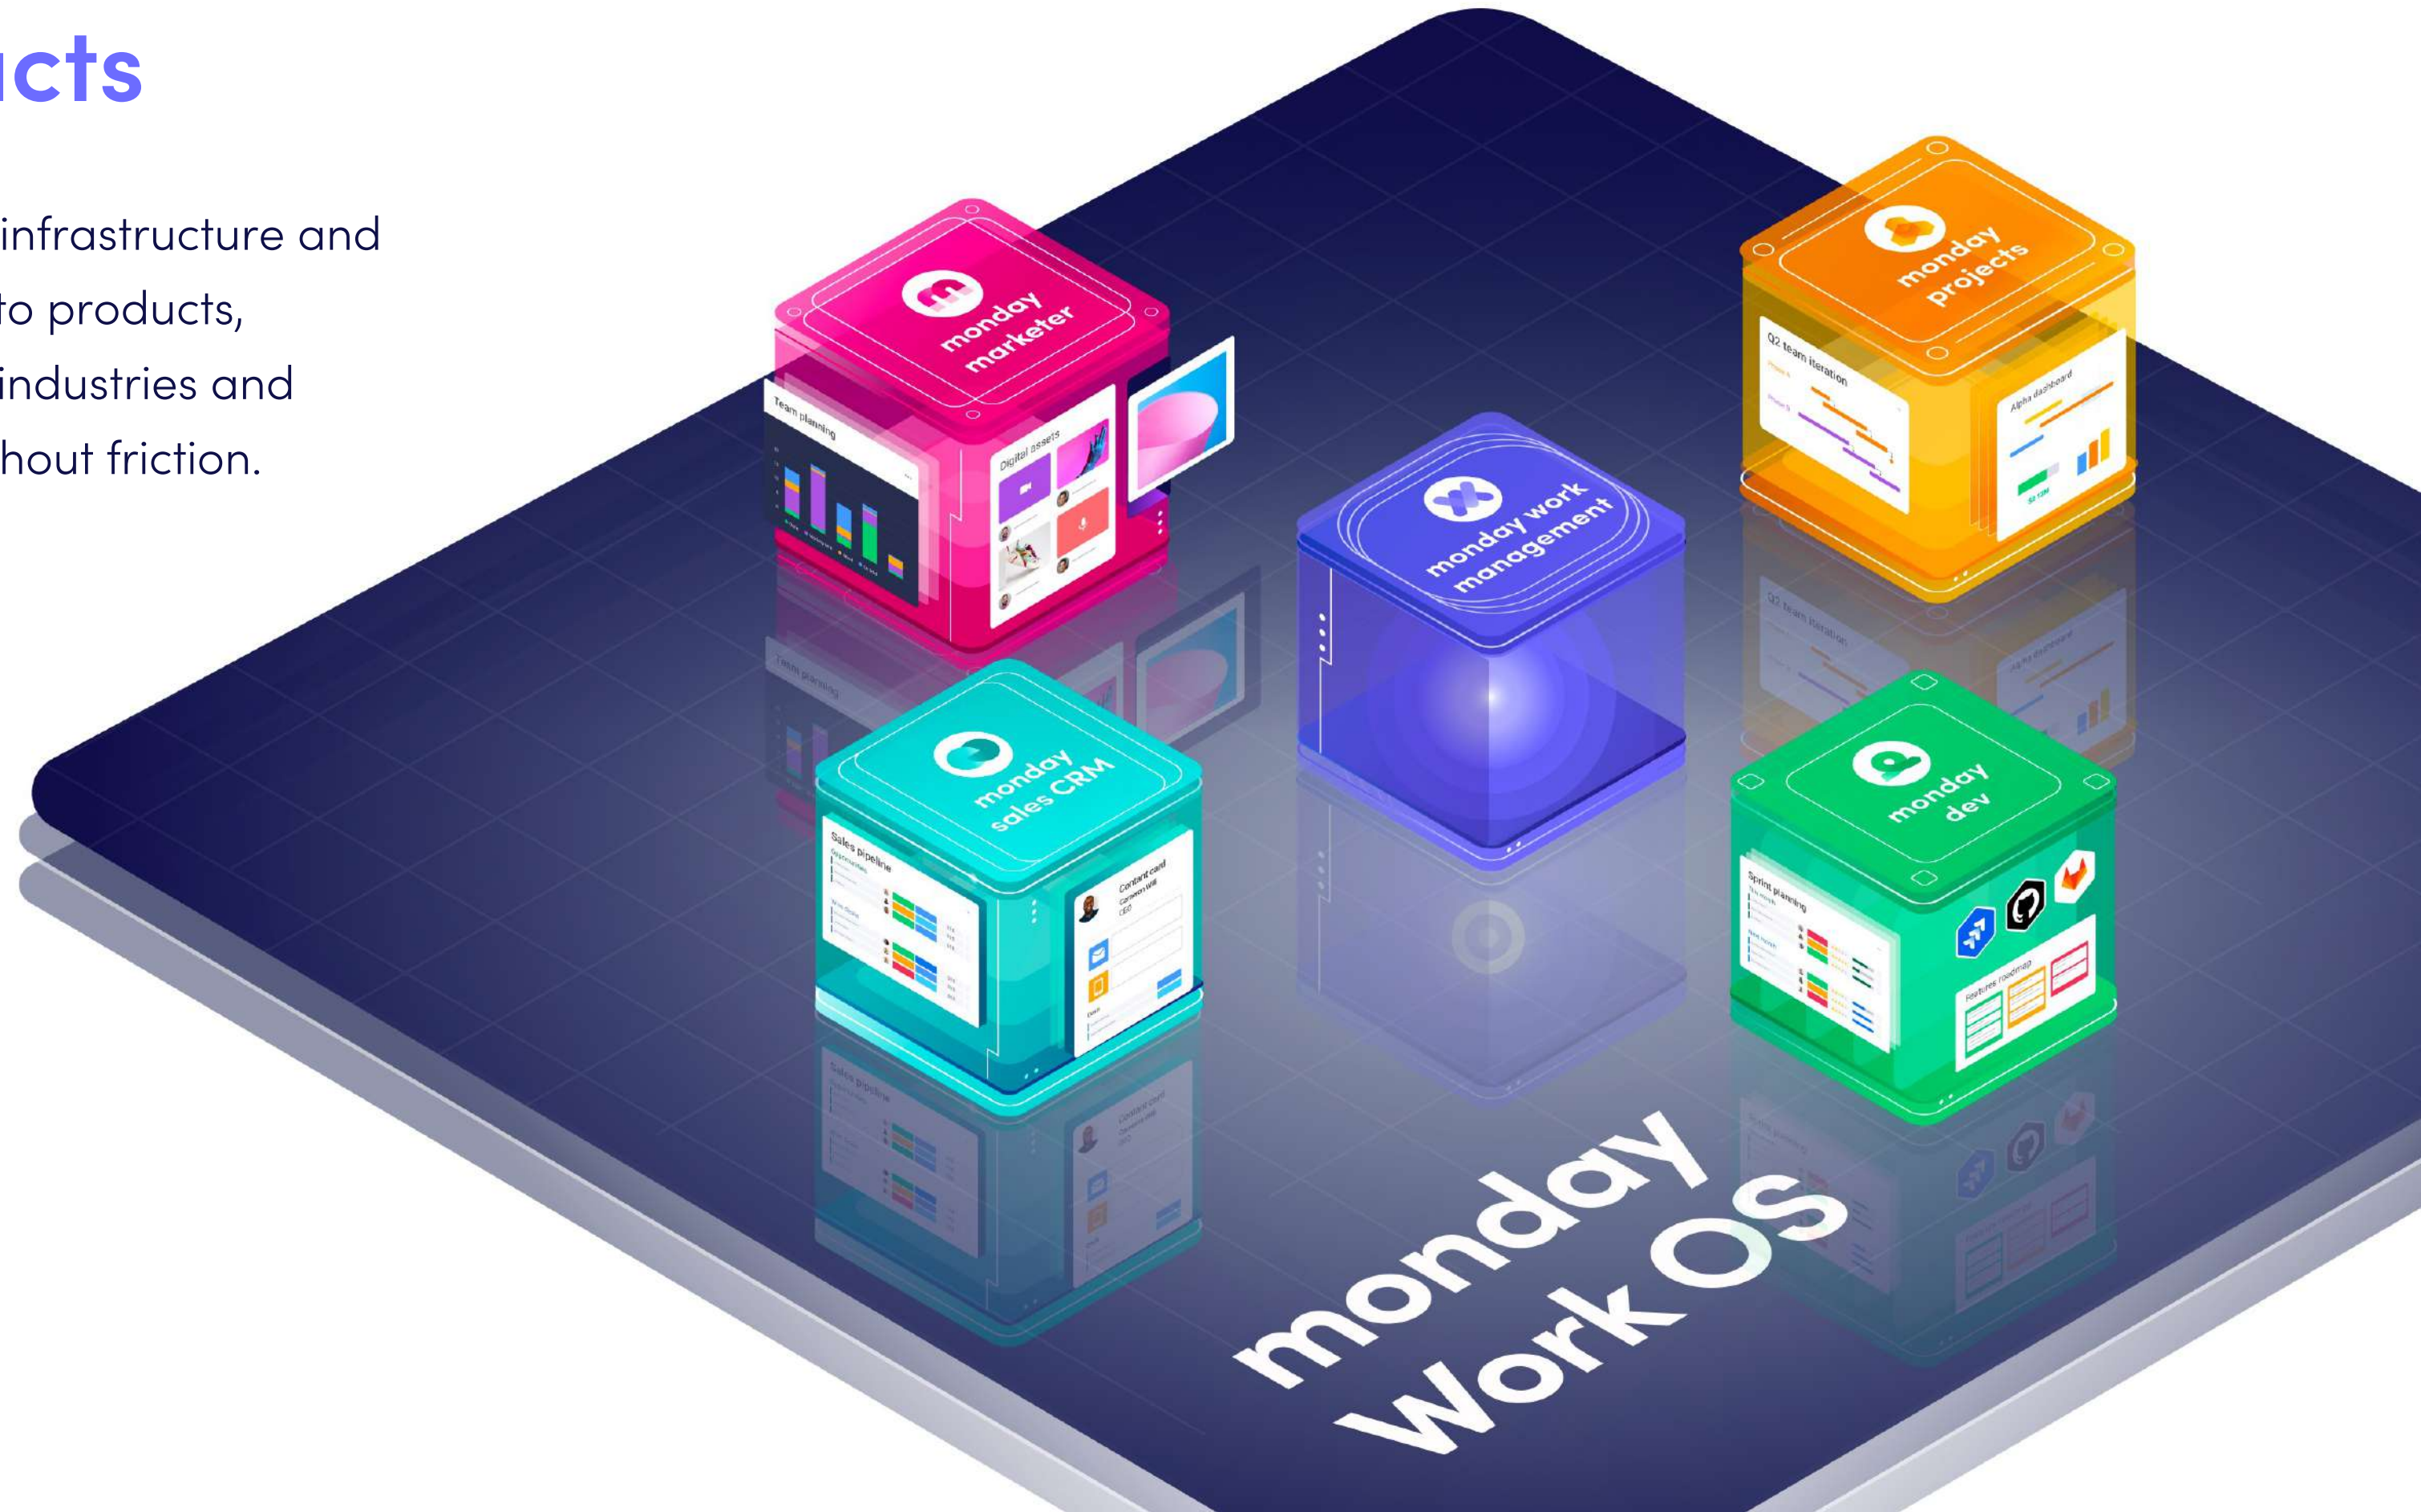

- **Disconnected work tools and applications**

Causing work silos and loss of information

One platform, many products

We're taking one modular infrastructure and packaging our offerings into products, expanding to hundreds of industries and thousands of use cases without friction.

Pioneering a new category of software

The monday.com Work OS

- **Flexible and adaptable**
Built to change and grow with every customer
- **Customizable no-code building blocks**
Easy enough for anyone to use
- **One platform to run all aspects of work**
Where employees run and manage their everyday work
- **Creating a single unified workspace**
Connective tissue integrating tools and aggregating data

Built like no other software

Simple-to-use building blocks that are powerful enough to drive the core functionality within any organization, in any industry, for any use case.

Building blocks

Empowering anyone to build their own tools with **no-code** building blocks

- Built as a modular, non-rigid infrastructure
- Easy to adopt and easy to scale over time
- Users can fully customize their experience with our no-code and low-code capabilities — nothing is predefined
- Every building block supports a compounding effect, allowing us to advance rapidly

Connective layer

Integrates with any tool. Automates any workflow

- Brings organizations' departments, applications and data into one unified workspace
- Serves as a connective layer, integrating with various digital tools across any organization
- Easily automates complex workflows to accelerate digital transformation, enhance organizational agility, boost productivity and increase operational efficiency

When a campaign goes **live**, create an **item** in **marketing campaigns**
