

Built like no other software

Simple-to-use building blocks that are powerful enough to drive the core functionality within any organization, in any industry, for any use case.

Building blocks

Empowering anyone to build their own tools with **no-code** building blocks

- Built as a modular, non-rigid infrastructure
- Easy to adopt and easy to scale over time
- Users can fully customize their experience with our no-code and low-code capabilities — nothing is predefined
- Every building block supports a compounding effect, allowing us to advance rapidly

Connective layer

Integrates with any tool. Automates any workflow

- Brings organizations' departments, applications and data into one unified workspace
- Serves as a connective layer, integrating with various digital tools across any organization
- Easily automates complex workflows to accelerate digital transformation, enhance organizational agility, boost productivity and increase operational efficiency

When a campaign goes live, create an item in marketing campaigns

[+ Add to board](#)

When an update is posted in weekly tasks, send it with Gmail

[+ Add to board](#)

When date arrives, create a new post and share it

[+ Add to board](#)

When an issue is created in R&D tasks, create an item and sync future changes

[+ Add to board](#)

When an object meets these conditions, create an item and sync all future changes

[+ Add to board](#)

When a status changes to stuck, create an issue in bug report

[+ Add to board](#)

When starting a meeting on zoom, create an item and sync meeting details

Expanding upmarket

Every team, every industry, every use case

Thank you
