

# Built like no other software

Simple-to-use building blocks that are powerful enough to drive the core functionality within any organization, in any industry, for any use case.

## Building blocks

# Empowering anyone to build their own tools with **no-code** building blocks

- Built as a modular, non-rigid infrastructure
- Easy to adopt and easy to scale over time
- Users can fully customize their experience with our no-code and low-code capabilities — nothing is predefined
- Every building block supports a compounding effect, allowing us to advance rapidly

## Connective layer

# Integrates with any tool. Automates any workflow

- Brings organizations' departments, applications and data into one unified workspace
- Serves as a connective layer, integrating with various digital tools across any organization
- Easily automates complex workflows to accelerate digital transformation, enhance organizational agility, boost productivity and increase operational efficiency
